6.6.

June 5th, 2018

Dear Community Leader,

Applications are now being accepted for the Enabling Accessibility Fund's Workplace Accessibility Stream and Community Accessibility Stream.

The EAF was established by our Conservative Government in 2007 to help fund small projects in communities across Canada to improve physical accessibility for persons with disabilities. Since 2007, funding has been provided to over 2,300 accessibility projects across Canada.

Applications through the Workplace Accessibility Stream must seek to:

- increase workplace accessibility and safety for people with disabilities; and,
- increase opportunities for current or future employees with disabilities to obtain or maintain employment and participate in the Canadian labour market.

Applications through the Community Accessibility Stream must seek to:

- increase accessibility and safety for people with disabilities in community spaces where programs and/or services are offered, or will be offered, to people with disabilities; and,
- increase opportunities for people with disabilities to participate in and contribute to community life.

Organizations eligible for Grants of up to \$100,000 include:

- Not for profit organizations;
- Municipalities with a population under 125,000; and
- Small businesses with fewer than 99 employees.

The deadline for submissions is **July 26th, 2018**. To learn more, please, visit my website at www.cherylgallant.com, and click on Enabling Accessibility under the Programs tab.

Sincerely,

Cheryl Gallant, M.P.
