

WELL WOMAN CLINIC

FOR UNATTACHED PATIENTS

If you do not have a primary care provider and are in need of well woman care, call our office to book an appointment to see our nurse practitioner.

The following services are available at the Well Woman's Clinic**:

- Medical history questionnaire
- Well Woman exams, including Pap and breast examination
- Prescriptions for Hormone Replacement Therapy (HRT)
- Birth control options
- Notification of any abnormal tests and appropriate referral if required
- Initial prenatal assessment and referrals
- Ordering of mammograms or provision of number to register for the Ontario Breast Screening Program

Call the Madawaska Valley Family Health Team to book your appointment at 613-756-9888 option 5.

****Please note that this is for well woman care only and you will not be seen for additional health care related issues**
